Figure 1 is a line graph showing the effect of the concentration of the inhibitor on the rate of polymerization. The y-axis is labeled "Rate of polymerization" and ranges from 0 to 1.0. The x-axis is labeled "Concentration of inhibitor" and ranges from 0 to 1.0. The curve starts at (0, 1.0) and decreases as the concentration of inhibitor increases, approaching zero as the concentration approaches 1.0. The curve is labeled "Rate of polymerization" and "Concentration of inhibitor".
