

SITUATION REPORT ON WARD 10 UNIT 002
(HANDCRAFT CENTRE)

The whole thing started with transportation of adhoc staff. The vehicle conveying my team to an polling unit got spoilt hence we arrived late, 11:40 am to be precise. We met hostile environment at the polling unit owing to the fact that we couldn't come early and the result sheets EC 8A series weren't distributed to us at that moment. In addition to this, there was no security agent at the polling unit, leaving us at the mercies of some group of people in the unit, who became more hostile to the extent of attempting to fight us. We tried all we could to calm the pressure in the polling unit but all our efforts proved abortive. Some group told us categorically that they aren't interested in voting, hence we packed our materials at exactly 3:00pm. There was no accreditation and voting in Ward 10 Unit 002.
